YOGA THERAPY for Critical Diseases

Medical assessments are taken into consideration to tailor yoga practices to individual needs. Scientifically proven methods. Back by Research

Yoga Therapy is a new form of healing emerging out of the current popularity of yoga practices. Yoga Therapy is created by the merging of traditional yoga with modern medicine. This approach makes yoga therapy more effective than general yoga practice for people, who wish to treat specific medical conditions through yoga.

Why AYC?

- 1. Founded by Elangovan who hails from a family steeped in Ancient Indian Arts.
- 2. Elan has been practicing Yoga Sutra for 99 years since he was 11.
- 3. Elan has done 15 years research into yoga therapy, written books and numerous articles.
- 4. AYC practitioners including Elan are registering therapists with TCM & MATIM Malaysia.
- 5. AYC's therapy integrated with Siddha & Ayurvedic principles.
- 6. A team of doctors, a PhD researcher will handle every case yoga therapies.

WHAT IS THE DIFFERENCE BETWEEN AYC NATURAL CARE AND NORMAL MEDICAL CARE?

- 1. Patients may continue treatment while under going AYC care.
- 2. Natural care does not add something to the system, but instead it removes anything that might interfere with normal function. Natural care trusts that the body would know what to do if nothing were interfering with it.
- 3. Standard medical care, on the other hand, seeks to treat a symptom by adding something from the outside. eg. a medication, a surgery and and/or procedure.
- 4. Combined with the latest approach in Bio-physics technology and ancient natural remedies and therapies, AYC provides a complete package of total therapy solutions.
